

MANASI VISHE

Data Analyst | BI Analyst | SQL • Power BI • Excel

+91 9322805073 | Pune, Maharashtra | vishemansi7@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Entry-level Data Analyst skilled in collecting, cleaning, and organizing data from multiple sources (SQL Server, Excel, CSV) to identify trends and generate business insights. Proficient in writing SQL queries for data extraction and analysis, and building interactive dashboards using Microsoft Power BI and Tableau. Strong analytical and problem-solving skills developed through applied, project-based learning in data cleaning, statistical analysis, and dashboard development.

EDUCATION

G.S. Moze College of Engineering, Savitribai Phule Pune University
Bachelor of Engineering, Computer Engineering — Pune, Maharashtra

Oct 2022 – May 2026

SKILLS

- **Languages & Query Tools:** SQL (Joins, Aggregations, Filtering), Python Programming, DAX
- **Databases:** SQL Server (SSMS), MySQL
- **BI & Visualization:** Microsoft Power BI, Tableau, Advanced Excel (VLOOKUP, HLOOKUP), Power Query, Data Modeling, Data Visualization, Business Intelligence
- **Core Competencies:** Data Collection, Data Cleaning & Organization, Data Analysis, Statistical Analysis, ETL, Dashboard Development, KPI Reporting, Pivot Tables, Data-Driven Decision Making
- **Soft Skills:** Communication, Analytical Thinking, Critical Thinking, Problem Solving, Planning, Teamwork, Time Management

PROJECTS

HR Attrition Analytics Dashboard | *Microsoft Power BI, DAX*

- Built and maintained an interactive Power BI dashboard analyzing 237 attrition cases, identifying trends behind a 16.1% attrition rate across department, salary slab, age group, education, and job role.
- Designed KPI cards and DAX measures to identify 61 high-risk employees and a 31.6% early attrition rate, supporting employee retention analysis.
- Analyzed department-wise and demographic trends, including 133 exits in Research & Development, 92 in Sales, and 12 in HR, to support workforce planning insights.

Loan Risk Analysis Dashboard | *Microsoft Power BI, SQL, Excel*

- Collected, cleaned, and organized 20K loan application records from multiple sources (SQL Server, Excel), writing SQL queries (joins, aggregations, filtering) to extract and validate data before Power BI reporting.
- Transformed data using Power Query and built an end-to-end loan risk dashboard, achieving a 23.9% approval-rate breakdown from raw data to final reporting.
- Built interactive filters for Employment Status, Loan Purpose, and Home Ownership to support risk analysis and identification of 160 high-risk customers.
- Created DAX measures and calculated columns to analyze risk categories, identifying 88.1% Low Risk, 11.1% Medium Risk, and 0.8% High Risk applicants — insights directly applicable to financial risk analysis.

FMCG Sales & Inventory Insights Dashboard | *Microsoft Power BI, SQL, Excel*

- Created and maintained a retail analytics dashboard tracking INR 39.3M total revenue, INR 7.9M profit, and 300K units sold across Snacks, Grocery, Personal Care, and Fruits.
- Extracted and organized inventory data covering 27M available stock units using SQL and Excel (VLOOKUP), and developed dynamic filters by Category, Brand, City, and Channel.
- Analyzed payment behavior, sales trends, and inventory turnover to support retail performance monitoring.
- Identified 1,729 low-stock items and an 8.5-day average lead time, providing actionable insights for inventory and restocking decisions.

CERTIFICATIONS

Deloitte – Data Analytics Job Simulation | Forage — Aug 2026 | [View Certificate](#)

- Completed a job simulation in data analysis and forensic technology, using Excel to classify data and draw business conclusions.
- Created a data dashboard using Tableau to visualize findings.

Introduction to MS Excel | Simplilearn SkillUp — Aug 2026 | [View Certificate](#)

- Covered core Microsoft Excel fundamentals, practicing formulas, functions, and formatting techniques for structured data analysis.
- Built foundational skills in spreadsheet navigation, data entry, and worksheet management for analytical tasks.
