PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in SQL, Microsoft Power BI, Advanced Excel, Power Query, DAX, Tableau, data cleaning, statistical analysis, and dashboard development. Experienced in transforming raw datasets into interactive BI dashboards, performing ETL, analyzing business KPIs, and generating data-driven insights to support business decisions. Strong analytical thinking and problem-solving skills gained through applied, project-based learning.

EDUCATION

G.S. Moze College of Engineering, Savitribai Phule Pune University

Oct 2022 – May 2026

Bachelor of Engineering, Computer Engineering — Pune, Maharashtra

SKILLS

- **Languages & Query Tools:** SQL, Python Programming, DAX
- **Databases:** SQL Server (SSMS), MySQL
- **BI & Visualization:** Microsoft Power BI, Tableau, Excel (Advanced), Power Query, Data Modeling, Data Visualization, Business Intelligence
- **Core Competencies:** Data Cleaning, Data Analysis, Statistical Analysis, ETL, Dashboard Development, KPI Reporting, Pivot Tables, VLOOKUP, Data-Driven Decision Making
- **Soft Skills:** Communication, Analytical Thinking, Critical Thinking, Problem Solving, Planning, Teamwork, Time Management

PROJECTS

HR Attrition Analytics Dashboard | Microsoft Power BI, DAX

- Built an interactive HR attrition dashboard analyzing 237 attrition cases and a 16.1% attrition rate across department, salary slab, age group, education, and job role.
- Designed KPI cards and DAX measures to identify 61 high-risk employees and a 31.6% early attrition rate, supporting employee retention analysis.
- Analyzed department-wise and demographic trends, including 133 exits in Research & Development, 92 in Sales, and 12 in HR, to support workforce planning insights.

Loan Risk Analysis Dashboard | Microsoft Power BI, SQL, Excel

- Developed an end-to-end loan risk dashboard covering 20K loan applications with a 23.9% approval rate, from raw data preparation to final Power BI reporting.
- Cleaned and validated loan records using Excel and SQL Server (SSMS) and transformed data using Power Query before data modeling.
- Built interactive filters for Employment Status, Loan Purpose, and Home Ownership to support risk analysis and identification of 160 high-risk customers.
- Created DAX measures and calculated columns to analyze risk categories, identifying 88.1% Low Risk, 11.1% Medium Risk, and 0.8% High Risk applicants.

FMCG Sales & Inventory Insights Dashboard | Microsoft Power BI, SQL, Excel

- Designed a retail analytics dashboard tracking INR 39.3M total revenue, INR 7.9M profit, and 300K units sold across Snacks, Grocery, Personal Care, and Fruits.
- Performed data cleaning and transformation on inventory data covering 27M available stock units and developed dynamic filters by Category, Brand, City, and Channel.
- Analyzed payment behavior, sales trends, and inventory turnover to support retail performance monitoring.
- Identified 1,729 low-stock items and an 8.5-day average lead time, providing insights for inventory and restocking decisions.

CERTIFICATIONS

Deloitte Australia – Data Analytics Job Simulation | Forage — Aug 2026

[View Certificate](#)

- Completed a job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau.
- Used Excel to classify data and draw business conclusions.

LEARNING & TRAINING

- Data Analytics Training — SQL, Excel, Microsoft Power BI (hands-on, project-based).
- Self-directed learning through applied, real-world data projects.
- Practical experience in data cleaning, statistical analysis, and dashboard creation.
